PROFILE   A competent and collaborative junior Software Engineering practitioner with enhanced knowledge in software development, testing, and web design.

SUMMARY OF QUALIFICATIONS

- Student of Advanced Diploma in Software Engineering Technology with a specialization in Artificial Intelligence
- Proficient in software development projects using standard coding practices and object-oriented programming
- **Programming Languages:** HTML5, CSS, C#, Python, JavaScript, Java, jQuery and SQL Query
- Effective communication skills and actively listens to feedback for improvements for optimal user functionality
- Enthusiastic and flexible individual who quickly learns new technology tools and skills
- Experience using case analysis to understand software process frameworks, including Agile and data modeling
- Able to develop iterative and client-centered responsive websites using comprehensive skills
- Foundational knowledge of algorithms, machine learning and software security concepts

EDUCATION

Software Engineering Technology Advanced Diploma (Co-op)   Jan 2021 - Present
Centennial College, Toronto, ON   *GPA: 4.4/4.5*
- Specialization in Artificial Intelligence

Highlight of Courses:

Software Engineering Methodologies	Introduction to Database Concepts	Client-Side Web Development
Database Concepts	JavaScript	Introduction to AI
Unix/Linux Operating Systems	Object Oriented Programming	Java Programming

ACADEMIC PROJECTS

- Web Design: Built web interfaces using programming language HTML, CSS and JavaScript
- Unix/Linux OS Systems: Established a solid ground working through Linux OS
- Database Concepts: Applied SQL queries to build functioning database systems
- Java Programming: Created multi-tier web applications including developing secure and deploying complex data-driven applications
- Software Engineering Methodologies Project: Software Requirements Engineering Tasks including developing SRS document, researching in depth to build SDD and covering requirements modeling on applications

WORK HISTORY

Customer Service Associate (Seasonal)   Summer 2021
Mary Brown's Chicken, Toronto, ON
- Provide quality service to over 50 customers daily, including processing transactions and monitoring inventory
- Work collaboratively with team to process in-store and online delivery app order with accuracy and efficiency

ACCOMPLISHMENTS

- Organized a seminar on Artificial Intelligence and CRISPR Revolution of Biology for students (Jan 2020)
